EDUCATION

The University of Melbourne

Feb 2023 – Jul 2024

Master of Information Technology - Major in Cybersecurity

Melbourne, VIC

- Grade: Distinction - Awarded Melbourne Global Graduate Scholarship (2023)

Monash University

Feb 2020 – Nov 2022

Bachelor of Computer Science - Major in Advanced Data Structures & Algorithms

Melbourne, VIC

- Grade: Distinction - Awarded International Study Grant (Admitted with ATAR 93.5)

EXPERIENCE

Graduate Software Engineer

Sep 2025 – Present

NetApp Instaclustr

Melbourne, VIC

- Contributed to the development and maintenance of a large-scale open-source application platform managing thousands of distributed servers globally.
- Participated in team rotations across multiple technology stacks (e.g. Java, Python, TypeScript), accelerating cross-domain knowledge and platform familiarity.
- Improved monitoring, logging and operational visibility to reduce incident response times and enhance system stability.

Software Developer Internship

Feb 2024 – Jun 2024

InflaMed

Melbourne, VIC

- Designed and delivered a full-stack web application using TypeScript and Next.js with RESTful API integration, reducing average page load times by 40%.
- Automated Infrastructure as Code (IaC) using Terraform and deployed to Google Cloud Platform, cutting manual deployment setup time by 80%.
- Collaborated with agile cross-disciplinary teams, maintaining near 100% on-time sprint completion rate.

PROJECTS

E-Commerce Coffee Website | *Next.js, Tailwind CSS, PostgreSQL, Amazon RDS, Node.js*

- Developed a scalable, high-performance full stack e-Commerce platform using Next.js, React, and Tailwind CSS.
- Built a back end API with Node.js, and PostgreSQL on Amazon RDS, optimising query performance.
- Engineered a feature-rich shopping cart system, including product CRUD operations, persistent cart storage, and multi-item support.

Personal Portfolio Website V2 | *Next.js, Typescript, Tailwind CSS*

- Engineered a dynamic and responsive user interface with Next.js and Tailwind CSS, ensuring seamless performance across various devices and screen sizes.
- Implemented interactive type animations and custom effects, providing a unique and personalised user experience.
- Deployed on Vercel, ensuring efficient build processes and continuous deployment for rapid updates.

Ticket Management Web Application | *C#, .NET, Blazor, Microsoft Azure, MongoDB*

- Developed a ticket management application using C#, .NET and implemented a responsive user interface using Blazor Server and Bootstrap, enhancing user experience.
- Integrated Azure Active Directory B2C for secure user authentication and role-based authorisation.
- Utilised MongoDB Atlas for efficient data storage and real-time data handling.

SKILLS

Programming: JavaScript/TypeScript, Python, Java, SQL, HTML/CSS

Frameworks/Databases: React, Next.js, Node/Express, PostgreSQL, MongoDB

Developer Tools: Terraform, Docker, AWS/GCP, CI/CD, RESTful APIs, Automated Testing

Certifications: AWS Certified Cloud Practitioner
